

26776

Tiltable desktop monitor stand

Product variant

US-26776-000-55 - black

Data

Angle of inclination	0° to 12.5°
Base dimensions	9.842 x 8.268"
Bearing plate	9.055 x 9.842"
EAN	4016842117017
Height	from 13.78 to 17.716"
Height adjustment	4 different positions
Leg construction	flat steel plate
Material	steel
Max. load capacity	55.066 lbs
Product Category	Topline
Special features	4 rubber pads each for base and bearing plate provide for stability and noise filtration; bearing plate can be moved to optimize the center of gravity; stop bar prevents the monitor from slipping down
Type	black
Weight	9.141 lbs

Height-adjustable desktop stand with tilt support. The solid metal construction with the large support plate (9.055 x 9.842") is suitable for a wide range of monitors and other equipment in the same size range. The plate can be continuously tilted up to 12.5° and can be moved to optimise the centre of gravity. A stop bar ensures the necessary safety and prevents the monitor from slipping. Four felt-covered support pads provide decoupling under the base plate. The individual height can be adjusted in 4 steps between 13.78 and 17.716". In terms of load capacity, the stand can be centrally loaded up to 55.066 lbs. Rubber pads are included for secure, noise-insulating support of the monitors.
