WILLIAMS AV

Wi-Fi Receiver Compatibility Chart

WAV Classic Wi-Fi Receiver and WAV Pro Wi-Fi Receiver are compatible with all transmitter models listed below. **Note:** When using the WAV Classic Wi-Fi Receiver (WF R1) with the WaveCAST C (WF T5C) or FM+ C (FM T55C) transmitters, it is necessary to update the receiver firmware to v1.10.0 or later. The WF R1 firmware update tool for Windows can be found on the Williams AV website.

We recommend using the latest version of the WaveCAST app (v1.9.0 or later) with the WAV Pro receiver and BOYDs. The WaveCAST app is available on Google Play and Apple App stores.

	Williams AV Receivers		BOYD using WaveCAST App	
	WAV Classic Wi-Fi Receiver (WF R1)	WAV Pro Wi-Fi Receiver (WF R2)	Android-Based	iOS-Based
Wi-Fi Transmitters				
WaveCAST Transmitter (WF T5 [D])	✔	✔	✔	✔
WaveCAST C Transmitter (WF T5C)	Update WAV Classic receiver firmware to v1.10.0 or later.	✔	✔	✔
WaveCAST EIGHT Transmitter (WF T8 [D])	✔	✔	✔	✔
FM Transmitters				
FM+ Transmitter (FM T55 [D])	✔	✔	✔	✔
FM+ C Transmitter (FM T55C)	Update WAV Classic receiver firmware to v1.10.0 or later.	✔	✔	✔
IR Transmitters				
IR+ Transmitter (IR M1 [D])	✔	✔	✔	✔

✔ Checkmark indicates compatibility between receiver and transmitter
